

REMARKS:

It is noted that this is the 5th Official Action and care has been taken to be as consistent as possible throughout the language of the claims taking into account all of the objections raised by the Examiner concerning wording matters in all Actions to date on both this and the related application which is 10/616298. It is hoped that all matters are now resolved.

Minor amendments have been made in allowed Claims 8, 9 and 25 on this basis to make changes for consistency of language and to resolve points which the examiner has previously raised. It is believed that these amendments are self explanatory and allowable.

Claim 19 has been amended to include the wording of Claim 22, bearing in mind that Claim 22 was indicated as being allowable, together with the wording of intervening Claim 21. The wording has been amended to refer to "plurality of" where necessary for consistency.

It is submitted therefore that **the only claims now presented have been indicated as allowable** so that it is believed that all claims now presented are in good order for allowance.

Respectfully submitted,

DAVID BRAULT ET AL
